JUNO J5 B♭ Clarinet Mouthpiece

Designed for beginners, the JUNO J5 mouthpiece boasts a **beginner-friendly design at Vandoren's most affordable price point yet.**

The J5 delivers a **round, centered tone with easy response** in all registers, helping new clarinetists build confidence and healthy fundamentals from their very first notes. It also **features two durable O-rings instead of cork**, providing a reliable seal and easier maintenance.

Made in France to the same rigorous standards as all Vandoren products, the J5 is crafted from food-contact-certified acrylic material that meets the EN 71-3 toy safety standard, underscoring Vandoren's commitment to safe and responsible manufacturing.

B40LyreHD & B40HD B♭ Clarinet Mouthpieces

Introducing the first HD ebonite options beyond the BD series. The **B40HD** and **B40LyreHD** mouthpieces feature technical characteristics identical to standard ebonite, while **offering enhanced sound quality through the unique acoustic properties of HD ebonite.**

B40LyreHD Models: Traditional (A = 442) and 13 Series (A = 440)

B40HD Models: Traditional (A = 442), Profile 88 Series, and 13 Series (A = 440)

VK1 Synthetic Bass Clarinet

The **VK1 Synthetic Bass Clarinet Reed** offers classical clarinetists **reliable, consistent playability without sacrificing tonal quality.** Durable and resistant to changes in environment, the VK1 provides classical musicians with a **stable and dependable option when they need it the most.**

Suitable for all classical styles, marching band, and pit orchestras.

Contrabass Mouthpiece

A new and refined Contrabass Clarinet mouthpiece featuring a round tone with enhanced depth and presence.
