AVA™ "FILED - RED CUT"

The driving force behind the JAVA "Filed - Red Cut" design was to offer more sonic possibilities to musicians while keeping the qualities of the original Java.

More flexible than its elder version, with a little more tonal body, the JAVA "Filed - Red Cut" offers a full, rich, centered sound and excellent projection with an extremely precise attack.

A relative of the JAVA reed family, the JAVA "Filed - Red Cut" is the first file cut Vandoren reed for jazz and popular music. It also benefits from a completely new design.
